

Butinox[®]

WOOD PROTECTION

Protect and enhance the natural beauty of wood

Butinox¹ Butinox² Butinox³

WORKING BEAUTIFULLY WITH NATURE

Butinox 0

EXTERIOR USE TRANSLUCENT STAIN

Protect and enhance the natural beauty of wood with **Butinox 1**. An exterior, translucent, solvent based woodstain designed for a variety of exterior timber applications including newly primed, previously stained or pressure impregnated wood.

Butinox 2

EXTERIOR USE OPAQUE STAIN

This opaque solvent-based woodstain delivers exceptional protection for new and existing exterior timber. It is easy to apply and forms a flexible film, which provides excellent weather resistance.

Butinox 3

EXTERIOR USE OPAQUE STAIN

Butinox 3 is an opaque, waterborne woodstain for use outdoors – containing both alkyd and acrylic resins – offering the best performance and the longest service of all the stains within the Butinox range.

Visir

Available as either a pigmented waterborne or clear solvent-based primer, providing complete protection of new and weather worn timber.

Please note: Possible slight colour deviations depending on substrate. Our paints comply with European Commission VOC product directive 2004/42/CE, which limits the VOC content of paints. Our water based paints already comply with the 2010 limits set by the EU.

Butinox[®]

The beauty and strength of the natural world have inspired the colour palette for our Butinox series of outdoor timber protection products.

Introducing the Butinox range of woodstains

Jotun Butinox woodstains give you the best of both worlds: the range has been formulated to enhance the look of wood while maintaining the highest standards of protection against the UK's challenging weather.

Not only do they give you exceptional protection for all your exterior timber, Butinox woodstains bring out the natural beauty of the grain and that even goes for the opaque stain, with its low build characteristics.

Using natural oils, as well as the latest alkyd and acrylic resins, Butinox woodstains will remain flexible, durable and hardwearing for years to come and offer long maintenance cycles of between 5 and 8 years.
